

Rip & Gang Saws - ATB

Designed for ripping soft or hard woods where a strong grain pattern can cause saw to drift and follow grain. ATB design helps to maintain direction and provide a clean, straight cut. These can be bored out to fit most gang rip saws. Please call for information on this service.

* Designed for Mereen-Johnson rip saws with 3 1/8" arbor and with one 1/4" keyway. ** Specially designed for cutting with Diehl saws, 9/16" pin hole at 5" bolt circle.

*** For Raimann Rip Saw with 4 small 7 mm pins & 2 large 14mm pins, plus 2 keyways. G10, GTM1810, and GTM1812 are excellent for cutting counter tops.

Multi-Score Split Saws

This diamond saw blade is designed to cut faster and cleaner and will last 150 times longer than a carbide blade if solely used on fiber cement material and not used to cut through nails or staples.
