

## Combination Saws

Combination saws are designed for good all around use when acceptable rips and crosscuts must be made with one saw blade. The larger gullets allow deeper cuts and efficient saw dust escape on rip cuts.

DIAMETER	TEETH	DESIGN	KERF	PLATE	BORE	HOOK	ORDER ID	LIST PRICE

## Double Cut Off Saws

Double Cut Off saws are designed for panel sizing double end machines. These are to be used in pairs with one right (3R1L) and one left (3L1R). Our DC saws use Micro-Sheen C-4 submicron carbide, which provides better resistance to corrosion, gives longer tool life, and extended use before sharpening.

DIAMETER	TEETH	DESIGN	KERF	PLATE	BORE	HOOK	ORDER ID	LIST PRICE
12"	80T	3R1L	.165"	.118"	1 1/4"	15	DC1280R	207.90
12"	80T	3R1L	.165"	.118"	1 1/4"	15	DC1280L	207.90

## Solid Surface Saws

Designed for cutting Corian, Avonite, Fountainhead, Surell, and similar materials. Our special submicron carbide will outlast any conventional carbide, delivering a much better cut over a longer life.

## Finger Joint Cutters

Our finger joint cutters are made with precision CNC machines. They stay longer on the machines and your customer will appreciate the quality. Three wing cutters are also available. The prepx GAL have laser cuts in the body to help reduce noise.
